Ms. Watson informed the board members that U.S. EPA redesignated Lake County to attainment of the national ambient air quality standard for PM₁₀ earlier in this year. The redesignation is based on three years of data showing attainment with that standard and the 1995 state implementation plan that IDEM submitted. Ms. Watson stated that this rule is the final adoption of a state rule that will incorporate that designation officially into state rules, and make Lake County attainment for purposes of state rules and permitting. Ms. Watson asked the board to final adopt the rule.
